

## ANTI-SPAM POLICY

### Credit

This document was created using a Contractology template available at <http://www.freenetlaw.com>.

### What is spam?

In the context of electronic messaging, spam refers to unsolicited, bulk or indiscriminate messages, typically sent for a commercial purpose.

David Lloyd has a zero-tolerance spam policy.

### Automated spam filtering

David Lloyd's email and blog messaging systems automatically scans all incoming email and other messages, and filter-out messages that appear to be spam.

### Problems with spam filtering

No message filtering system is 100% accurate, and from time to time legitimate messages will be filtered-out by David Lloyd's system.

If you believe this has happened to a message you have sent, please advise the message recipient by another means.

You can reduce the risk of a message being caught by the spam filters by sending the message in plain text (i.e. no HTML), removing any attachments, and ensuring that your messages are scanned for malware before dispatch.

### User spam

David Lloyd provides a facility (forums) that enables users to send email messages / private messages to others. Users must not use this facility to send unsolicited, bulk or indiscriminate messages, whether or not for a commercial purposes. Full terms and conditions concerning the use of the facility are set out in other legal documents on this site.

### Receipt of unwanted messages from David Lloyd

In the unlikely event that you receive any message from David Lloyd or sent using David Lloyd's systems that may be considered to be spam, please contact David Lloyd using the details below and the matter will be investigated.

### Changes to this anti-spam policy
